International Trend of Shrinking Fixed Net Market Far Advanced in Austria

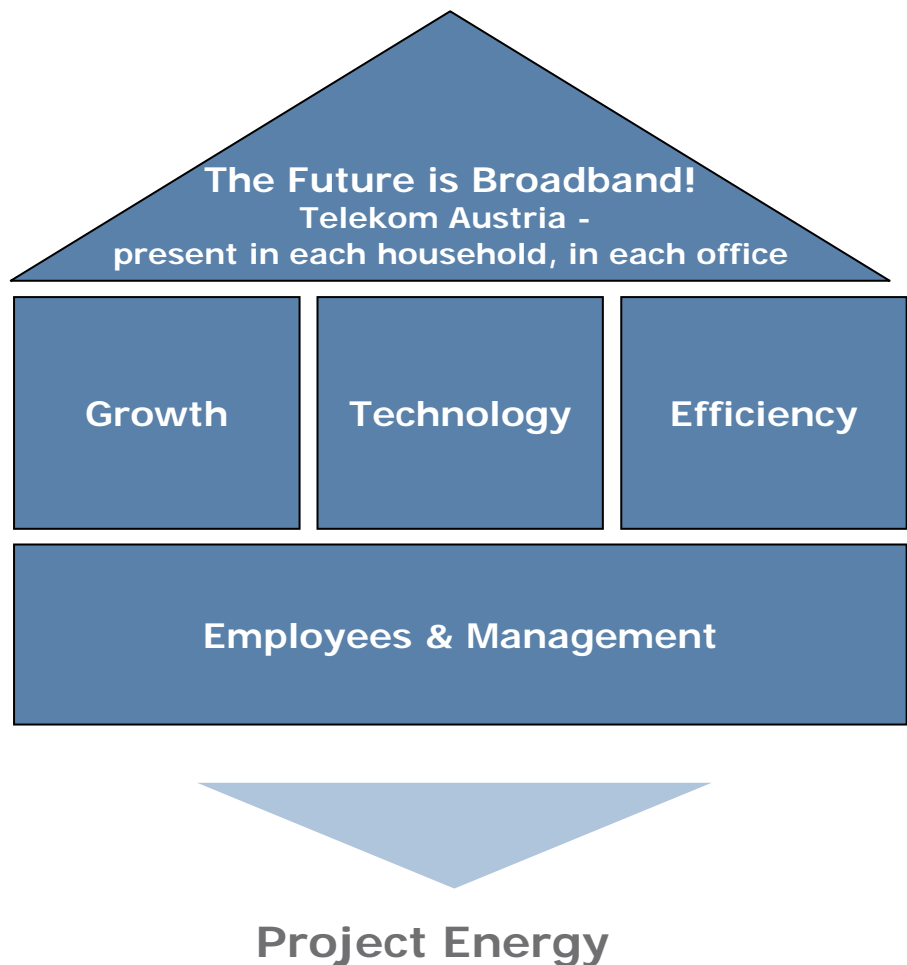

Shrinking Fixed Net Market Requires Adoption of Counter-Measures

- Technological changes and success of mobile communication lead to a loss of 600,000 fixed net access lines over the past 5 years
- Cost cutting imperative to safeguard fixed net business over the long term
- Decline in earnings requires the adoption of restructuring measures

In 2008 Important Steps Were Taken to Safeguard Fixed Net Business

- Successful product bundles reduce fixed access line loss
- Increase in Fixed Net broadband lines of 18% to roughly 886,000
- Successful broadband innovations: 75,000 aonTV customers as of May 2009
- Cost reduction proves effective
- Restructuring program impacts results but not cash flow

Fixed Net Strategy Based on Three Pillars: Growth, Technology, Efficiency

- Value-accretive subscriber growth via innovative products and high-value services
- Future-proof technologies
- Streamlined processes and cost awareness in both conception and implementation
- Customer orientation, creativity, flexibility of all employees and management
