Mobile Communication Spending Expected to be Fairly Resilient to Individual Spending Cuts

Maslow's Hierarchy of Needs

Sofia, October 2008

- Communication covers human need for social contact
- Social need closer to basis in the hierarchy of needs
- Spending cuts expected to first effect top layers of hierarchy first especially due to low portion of ARPU of average salary

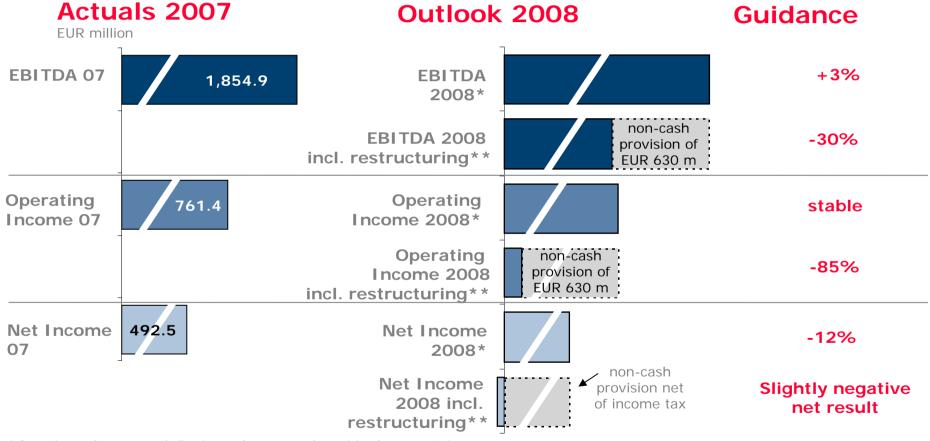

Announced Restructuring Measures Require Non-Cash Provision of approx. EUR 630 mn in 4Q 08

- Shrinking domestic fixed line market and ongoing fixed access line loss make restructuring measures imperative
- Restructuring program consists of non-cash provision for a labour displacement scheme for civil servants, who cannot be laid off and a social plan for employees voluntarily leaving until end of 2009
- Non-cash provision for approx. 1,250 FTE amounts to approx. EUR 630 million and results in estimated 2009E EBITDA savings of FUR 35 million
- Non-cash provision for social plan for approx. 400 FTE amounts to approx. EUR 60 million included in the EUR 630 million non-cash provision
- Restructuring measures will have no impact on planned DPS of 75 Eurocent for 2008 despite impact on reported results in FY 2008

Appendix

Regulatory Issues – Key Aspects (1)

Mobile termination rates: The Austrian administrative court rescinded the last two SMP-decisions because the National Regulatory Authority imposed an ex-ante obligation on mobile operators retroactively which is illegal in the court's view. With this revocation the glide path of mobile termination rates was rescinded as well. The national regulatory authority resumed the proceedings, which were effected by the courts decision. We anticipate the new decision by the end of 01/2009

Next Generation Networks: The Commission has recently published its recommendation on next generation access and launched a public consultation open until November 14, 2008. The recommendation addresses issues of geographical segmentation and access to basic facilities including ducts. It amends the current framework and contradicts partly the terms adopted by the European Parliament has adopted in its first reading for the next legal framework on the subject of investments (e.g.: risk-sharing agreements, proportionality of remedies). On a national level especially access issues remain under discussion.

Regulatory Issues – Key Aspects (2)

Review of the Regulatory Electronic Communication Framework: The European Parliament has adopted in its first reading the proposals that are now subject to agreement of the Council of Telecoms Ministers. The provision to apply functional separation of networks under certain terms as a means to remedy market failure remains under discussion. Also the discussion on the number of days in which mobile operators have to port mobile numbers is still open.

Unbundling of the Local Loop: At present, the tariff for the monthly rental of Telekom Austria's local loop is subject to a national public consultation. In a decision as of end of October 2008 the National Regulatory Authority mandated Telekom Austria to lower its monthly ULL charges from EUR 10.44 to EUR 9.33. Following the KombiPaket offer (Nov.07-Jan.08) the National Regulatory Authority mandated Telekom Austria to lower its monthly ULL charges from EUR. 10.44 to EUR 9.33.

Regulatory Issues – Key Aspects (3)

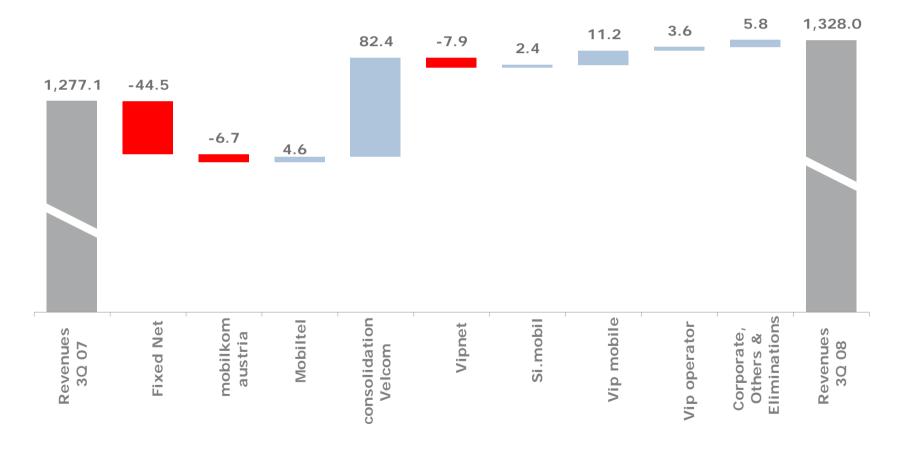

International roaming charges: As of end of September 2008 the EU-Commission filed its draft proposal to the EU Parliament and the Council to extend the existing roaming regulation. The proposal calls for:

- Extension of the voice roaming regulation at both wholesale and retail level until 2013.
- Per-second billing both at wholesale and retail level, except for 30/1 pulsing for outgoing calls at retail level.
- Wholesale and retail price caps for SMS. Wholesale cap at 4 Cents, retail cap at 11 Cents.
- Introduction of transparency measures for data roaming: By July 1, 2010 customers should be allowed to specify a "cut-off limit" for their outstanding data roaming charges.
- Introduction of a wholesale price cap for data roaming services of 1 Euro starting from July 1, 2009.
