Operational and Financial Highlights for the First Nine Months of 2013

1-9M 2013: Operational Developments in Line With Expectations

- > Group revenues down 2.6% year-on-year as growth in the Belarus and in the Additional Markets segment partly mitigates decline in Austria, Bulgaria and Croatia
- > While overall revenues still decline by 3.6% in Austria, high-value focus and convergence strategy continue to yield encouraging results
 - > Improved churn and high-value mobile customer trends
 - > TV and fixed broadband growth support access-line trends while fixed voice minute loss weighs on ARPL
- > International businesses see revenues decline by 2.4% as a result of challenging macro-economic trends and regulatory burdens
 - > Croatia: EU accession in July 2013 and termination rate cuts puts pressure on roaming and interconnection revenues, resulting in negative effects of EUR 7.6 mn and EUR 6.7 mn respectively
 - > Belarus: Benefits from past price increases and subscriber growth are partly negated by FX-translation effect
- > Spectrum auctions Austria: Excellent frequency furnishing (2/3 of available 800-MHz spectrum) provides strong strategic implications, but costs of EUR 1.03 bn cause leverage to spike
- > FY 2013 Group guidance unchanged: Revenues of approx. EUR 4.1 bn, CAPEX* of EUR 650 - 700 mn and intended dividend of EUR 0.05/share

* Does not include investments for spectrum and acquisitions

- > Operational trends remain unchanged, but regulatory effects following Croatia's EU accession plus 6.5% BYR devaluation put additional pressure on revenue and EBITDA comparable
- > Total negative regulatory impact of EUR 42 mn on revenues and of EUR 26 mn on EBITDA comparable
- > Negative FX effects: EUR 14.8 mn on revenues, EUR 7.3 mn on EBITDA comparable
- > Group OPEX reductions cushion margin decline
- > Intensified restructuring effort (98 FTEs addressed) reduces employee costs in Austria but contributes to y-o-y net income decline

* Excluding effects from restructuring and impairment tests

Additional Restructuring Efforts Contribute to Cost Savings

Overview Restructuring Charges

(in EUR million)

	Q1 2013	Q2 2013	Q3 2013
FTE effect	2.7	25.5	27.4
servicekom	0.0	-20.6*	0.3
Interest rate adjustments	0.0	0.0	0.0
Total	2.7	4.9	27.7

- > Total restructuring charge of EUR 27.7 mn in Q3 2013
- > 98 FTEs addressed in Q3 2013 after 68 FTEs in Q2 2013 and 20 in Q1 2013
- > FY expectations for total restructuring charge increased from approx. EUR 20 mn to approx. EUR 40 mn

- > Intensified efforts to address employee costs via social plans
- > Higher net restructuring charge in Q3 resulted from a larger FTE and lesser servicekom effect versus Q2
- > Positive servicekom effect in Q2 provided additional flexibility

New initiative '*Civil Servants to Government Bodies*' starts in Q4 2013

- > Old programme finishes by mid-2014
- > New programme covers a potential 400 civil servants of Telekom Austria Group and Post AG

* Impacted by 58 FTEs transferred from 'staff released from work' to 'social plans' through Servicekom.

Price Pressure & Regulatory Effects Remain Biggest Revenue Burdens; Softer BYR Adds to Strain

Quarterly Revenue Development

(in EUR million)

Segment Austria

- > EUR 2.8 mn higher equipment revenues and YESSS! contribution only partly soften revenue decline
- > 4.4% decline in monthly fee and traffic revenues caused by mobile price pressure and lower ARPL
- > Price pressure and regulation drive 13.8% ARPU decline
- > 4.0% ARPL decline as broadband and TV growth only partly mitigate fixed voice minute loss and price pressure

International Segments

- > Bulgaria: Mobile and fixed price pressure as well as interconnection drive 12.2% revenue decline
- > Croatia: Higher fixed-line revenues cannot offset mobile price pressure and roaming cuts
- > Belarus: inflation-driven price increases drive 18.5% local currency revenue growth; almost fully offset by negative EUR 14.8 mn FX translation effect

* Corporate, Others & Eliminations

EUR 37.4 mn Gross Cost Savings Help Mitigate Revenue Pressure on EBITDA Comparable

Quarterly EBITDA Comparable Development

(in EUR million)

Segment Austria

- > EUR 4.9 mn lower operating expenses due to regulatory impacts and cost saving initiatives
- > Lower FTE and actuarial adjustments lead to EUR 3.2 mn personnel expenses decline
- > 20.8% y-o-y increase in SACs/SRCs (subsidy ramp-up started in Q3 2012) leading to reduced churn and an increase in revenues from high-value customers

International Segments

- > Bulgaria: EUR 3.2 mn lower OPEX primarily due to headcount reductions as well as cuts in marketing and sales costs
- > Croatia: Lower revenues burden EBITDA comparable, as operating expenses remain almost flat
- > Belarus: EBITDA comparable rises 32.7% excluding negative foreign exchange effects
- > Continuing growth in EBITDA comparable contribution from the Additional Markets segment

* Corporate, Others & Eliminations

Decline in Gross Cash Flow Partly Offset by Lower Working Capital Needs

Free cash flow per share	0.30	0.37	-20.4%	0.69	0.70	-2.4%

Year-to-Date Analysis

- > Lower gross cash flow reflects operational challenges
- > EUR 120.0 mn working capital needs in the first nine months of 2013 due to:
 - > EUR 71.0* mn cash effect of restructuring in Austria
 - > Reduction in accounts payable mainly driven by Austria, Bulgaria and Croatia
- > In a year-on-year comparison working capital needs were lower due to a sharper decline in liabilities in the first nine months of the previous year
- > CAPEX: EUR 46.0 mn spent on the acquisition of assets from Orange in Austria as well as 800-MHz and 1800-MHz frequencies acquisition in the Republic of Macedonia were partly offset by CAPEX savings in the Bulgarian segment

* EUR 75.7 mn including severance payments in accordance with social plans
