

Earnings Update: Q2 2023 and H1 2023

Highlights

Revenues: +7% vs. Q2 2022 to EUR 1,299 mn,

driven by value-protecting pricing measures and upselling.

Revenue guidance: Revenues expected to grow by around 5% in financial year 2023

(previously: around +4%).

EBITDA: +6% vs. Q2 2022 to EUR 486 mn,

due to the positive revenue development and despite higher

operating expenses.

Financial result: The significant year-on-year increase in interest rates is reflected

in the interest expense. In addition, currency effects had a

negative impact on the financial result.

CAPEX: Increase of EUR 148 mn to EUR 359 mn,

of which approximately EUR 110 million for frequencies in

Croatia.

Free cash flow: Below prior year due to higher CAPEX and changes in working

capital.

Dividend: EUR 0.32 per share (total EUR 213 mn) paid to shareholders.

Rating: First rating by Fitch: With an A-, Telekom Austria has the best

Fitch rating of all European telcos.

Towers: Next step for the spin-off of the tower business: Extraordinary

General Meeting on August 1, 2023.

In this Earnings Update, rounding differences may occur in the summing of rounded amounts due to the use of automatic calculation tools.

Q2 2023 in a nutshell

In the second quarter, A1 Group increased total revenues by 7% year-on-year. This increase was mainly driven by value-protecting pricing measures and the continuation of up-selling activities.

The positive revenue development led to an EBITDA increase of 6% to EUR 486 million, despite higher operating expenses.

However, the operating gains were fully offset by the lower financial result: Higher interest rates compared to the second quarter of last year resulted in higher interest expenses. In addition, the financial result was negatively impacted by exchange rate effects (mainly the Belarusian ruble against the euro).

In Belarus, as everywhere else, A1 experienced rising costs. However, restrictive price regulations limit A1's ability to adjust prices accordinaly.

Capital expenditures ("CAPEX") increased by EUR 148 mn to EUR 359 mn. Of this amount, approximately EUR 110 mn was invested to secure spectrum in Croatia for 15 years. In addition, investments in the broadband roll-out, especially in Austria, were higher than in the previous year.

As a result of the higher CAPEX and changes in working capital, the free cash flow amounted to EUR 30 mn (Q2 2022: EUR 171 mn). Excluding spectrum investments, the free cash flow would have been EUR 140 mn.

The Annual General Meeting on June 7, 2023 approved a dividend of EUR 0.32 per share. In mid-June, Telekom Austria AG paid a total dividend of EUR 213 million to its shareholders.

In June, the international credit rating agency Fitch published its first rating for the A1 Group (Telekom Austria AG). The long-term issuer rating of A- (positive outlook) is the best Fitch rating for a European telco. A1 Group is now rated by the three major international rating agencies.

At the end of June, Telekom Austria AG invited for an Extraordinary General Meeting regarding the spin-off of the tower business. The meeting is scheduled to take place on August 1, 2023.

Mobile subscribers and fixed-line RGUs

In mobile communications, the number of subscribers rose by 5.2% to a total of about 24.5 million. Growth was largely driven by the strong increase in M2M business. Excluding M2M customers, the number of subscribers remained stable (-0.2%). The share of contract customers increased to 84.5% as of June 30, 2023.

In the fixed-line business, the number of revenue generating units (RGUs) increased by 1.9% year-on-year. While the number of voice RGUs decreased, the number of broadband RGUs and TV at home RGUs increased. The RGU growth in international operations, especially in Belarus and Bulgaria, more than compensated for the decline in Austria.

Internet@home customer base increased by 5.1% to 3.8 million in the Group, driven by the increase in mobile WiFi routers and broadband RGUs.

Planned spin-off of the tower business

Following the agreement of the core shareholders, the Supervisory Board of Telekom Austria AG has formally approved the spin-off of the tower business. The company will be named "EuroTeleSites AG" and is expected to be listed on the Vienna Stock Exchange before the end of 2023. The ownership structure of the spun-off company will initially remain in line with the previous ownership structure of Telekom Austria AG. The transaction is expected to be approved by the shareholders of Telekom Austria AG at an Extraordinary General Meeting on August 1, 2023 and to be implemented as soon as possible thereafter.

As of June 30, 2023 the tower portfolio comprised 13,225 macro sites in Austria, Bulgaria, Croatia, Serbia, Slovenia and Northern Macedonia. The tenancy ratio was 1.2 tenants per tower. On a pro forma basis, the tower business would have generated revenues from leases of about EUR 230 million and EBITDAaL of EUR 127 million in 2022.

The impact of the spin-off on A1 Group's revenues would be negligible (-0.2%) based on the pro forma figures in 2022. As the tower company will assume approximately EUR 1 billion of A1 Group's debt, the latter's net debt excluding leases will decrease by approximately EUR 1 billion. On the other hand, free cash flow will decrease by approximately EUR 60 million on average per year. Due to the increase in leasing expenses as a result of the transaction, net debt (including leasing)/EBITDA is expected to increase to 1.3x. In contrast, net debt (excluding leasing)/EBITDAaL will be more than halved to 0.4x.

A1 Group has contractually secured long-term access to the towers. The spin-off will allow A1 Group to focus more on its core business, which does not include the management of towers.

Outlook for financial year 2023

Based on the solid revenue performance in the first half of 2023, the company is raising its full-year revenue guidance. Revenue growth is now expected to be around 5% (previously: around 4%). The CAPEX guidance (excluding spectrum investments) of around EUR 950 million remains unchanged.

Group results (Q2 and H1 2023)

In Q2, **total revenues** grew 7.5%. Service revenues were up 5.5% year-on-year, benefitting from upselling and value-protecting pricing measures. Equipment revenues increased by 20.2%. STEMO in Bulgaria (not consolidated in H1 2022) had a positive impact on total revenues of almost EUR 14 million. This positive effect on the one hand was offset on the other hand by the depreciation of the Belarusian ruble, which reduced revenues by more than EUR 14 million. Mobile service revenues increased by 4.9%, driven by a strong performance of the mobile core business. Fixed-line service revenues increased by 6.1% year-on-year, driven by the Solutions & Connectivity business.

In H1 2023, total revenues increased by 7.6% to EUR 2,557 million. STEMO in Bulgaria had a positive impact of EUR 22 mn on total revenues, while the depreciation of the Belarusian ruble had a negative impact of EUR 8 million. Service revenues increased by 5.3% and equipment revenues by 23%.

In Q2, **EBITDA** increased by 6.3% to EUR 486 mn. This positive development was achieved despite cost pressures (in particular workforce costs, electricity costs and equipment costs). Restructuring charges in Austria amounted to EUR 17 mn (previous year: EUR 20 mn). The weakening Belarusian ruble had a negative impact of EUR 7 mn.

In H1 2023, EBITDA rose by 3.7% to EUR 922 Mio. as the effect of value-protecting pricing measures was mainly noticeable in the second quarter. Workforce costs, electricity costs and equipment costs were clearly above the levels of the first half of 2022. Restructuring charges amounted to EUR 38 mn (2021: EUR 41 mn). The development of the Belarusian ruble had a negative impact on the EBITDA of EUR 3 mn.

In Q2, operating income (EBIT) increased by 9.9% to EUR 241 mn.

In H1 2023, the EBIT reached EUR 436 mn, an increase of 5.4%.

In Q2, the **financial result** amounted to EUR -27 mn (previous year: EUR -4 mn). This development was the result of significantly higher interest rates and foreign currency exchange losses.

In H1 2023, the financial result deteriorated to EUR -48 mn (previous year: EUR -30 mn) due to the above mentioned reasons.

In Q2, the $\operatorname{\textbf{net}}$ result decreased by 0.4% to EUR 166 mn.

In H1 2023, the net result increased by 1% to EUR 301 mn.

In Q2, **capital expenditures ("CAPEX")** increased to EUR 359 mn (Q2 2022: EUR 211 mn). Approximately EUR 110 mn was invested to secure spectrum in Croatia for 15 years. In addition, investments in the broadband roll-out, especially in Austria, were higher than in the previous year. CAPEX excluding spectrum was EUR 249 mn.

In H1 2023, CAPEX increased to EUR 606 mn (H1 2022: EUR 391 mn). CAPEX excluding spectrum was EUR 496 mn.

In Q2, free cash flow decreased strongly to EUR 30 mn (Q2 2022: EUR 171mn). This was due to the increased CAPEX as well as to working capital changes. Free cash flow excluding spectrum amounted to EUR 140 mn.

In H1 2023, free cash flow amounted to EUR 123 mn (H1 2022: EUR 368 mn). Free cash flow excluding spectrum amounted to EUR 233 mn.

in EUR million	Q2 2023	Q2 2022		Jun 30, 2023	Jun 30, 2022

^{*} Cost for social plans granted in the respective period.

As of June 30, 2023, the **total assets** amounted to EUR 8,560 mn, 2.6% higher than at December 31, 2022. This was driven by investments in broadband, in particular in fiber infrastructure, which led to an increase in property, plant and equipment.

Current liabilities increased due to higher short-term debt as a result of higher CAPEX and the dividend payment of EUR 213 mn.

Non-current liabilities declined, driven by repayment of lease liabilities.

Net debt/EBITDA was 1.3x and on the same level as of December 31, 2022. Net debt (excl. leases) increased by 6.1%. The ratio "net debt (excl. leases)/EBITDA after leases" increased to 1.1x from 1.0x as of December 31, 2022.

In Q2 and H1 2023, total revenues in Austria increased due to higher service and equipment revenues. Roaming (visitor roaming and national roaming) revenues were flat in Q2 but about 14% higher in H1 compared to the previous year. The trend of declining interconnection revenues, primarily due to EU regulation, continued.

The intensified competitive environment in H2 2022 has increasingly subsided in the course of 2023. It is now possible to speak of a return to normal competitive intensity. As of April, A1 has implemented value-protecting pricing measures.

A1 is focusing strongly on the expansion of its broadband network. The five thousandth 5G site was installed in the spring. The expansion of the fiber optic network is also progressing, albeit somewhat slower than planned due to a bottleneck in construction capacity.

Mobile service revenues increased on the back of the solid retail business. Fixed service revenues also grew in Q2 2023, driven by positive developments in the retail business and in Solutions & Connectivity. The latter's year-on-year growth in Q2 was slower than in Q1 due to a larger project in the second quarter of last year.

Fierce competition in the second half of last year led to a reduction in voice RGUs in particular. The number of mobile subscribers increased slightly, and the share of contract customers improved to 79.2% as of June 30, 2023.

On the cost side, the main driver was electricity costs, which rose sharply in both Q2 and H1 2023. In 2022, A1 Austria benefited from electricity supply conditions prior to the Ukraine crisis. However, these contracts have expired, resulting in higher prices to be paid in 2023. The equipment margin improved in Q2. However, this could not compensate for the subsidy-driven lower equipment margin in Q1. Restructuring expenses were lower as a result of lower long-term restructuring provisions due to interest rate movements.

EBITDA margin	43.5%	41.8%	1.7pp	42.5%	42.5%	0.0pp

Revenues developed strongly both in both Q2 and in H1 2023, driven by continued up-selling and value-protecting pricing measures implemented in March 2023. Compared to the prior year, revenues

from STEMO, acquired in the summer of 2022, added EUR 14 mn in Q2 and EUR 22 mn in H1 2023. A1 also increased the number of RGUs and the mobile subscriber base. The share of contract customers was 87.4% as of June 30, 2023. On the cost side, there was an easing of electricity costs throughout 2023. However, workforce costs and costs for licenses and software for resale increased as result of the STEMO acquisition and following the ICT revenue growth.

Croatia

in EUR million	Q2 2023	Q2 2022		H1 2023	H1 2022	
Total revenues	125	113	10.6%	245	221	11.1%
EBITDA	45	40	10.3%	85	78	8.0%
EBITDA margin	35.6%	35.7%	-0.1pp	34.5%	35.5%	-1.0pp

In Croatia, total revenues increased by 10.6%. This was attributable to both higher equipment and service revenues. This development was driven by ICT, the monetization of the fiber rollout, and a good development in postpaid mobile as well as higher hardware revenues. On the cost side, the general price increases and in particular a sharp rise in electricity costs led to an increase of 10.8%. Intensive cost transformation programs are in place to help overcome the double-digit inflation. CAPEX increased due to EUR 110 mn invested in new spectrum (acquired for 15 years). In addition, the company has accelerated the rollout of its fixed network as well as the modernization and expansion of its mobile network.

Belarus

A1 has been facing a challenging business environment in 2023. There was a strong upward movement in costs due to adapted asymmetric interconnection rates (which also had a negative impact on reve-nues), inflation-related employee cost increases, higher usage-driven network costs, and the increase of the state-broadcast channel fee imposed in Q2 of last year. At the same time, restric-tive price regulations limit A1's ability to adjust prices accordingly. Furthermore, the state-regulated prices for solar power were reduced in June 2022, leading to a decline in revenues from solar power. In this challenging environment, A1 succeeded in growing fixed-line RGUs strongly. The mobile subscriber base was kept stable with a share of contract customers of 98.7% as of June 30, 2023. The development of the Belarusian ruble against the euro had a negative impact on revenues (EUR 14 mn in Q2 2023, EUR 8 mn in H1 2023) and EBITDA (EUR 7mn in Q2 2023, EUR 3 mn in H1 2023).

EBITDA margin	34.0%	33.2%	0.8pp	33.9%	33.4%	0.6pp

In Serbia, where A1 is present as a mobile network operator, service revenues performed consistently well throughout H1 2023. In the first quarter, higher equipment revenues strongly supported total revenues. After eliminating inactive prepaid customers from the subscriber

base in the first quarter, the number of subscribers has increased slightly year-on-year at the end of the second quarter. The share of contract subscribers continued to grow (June 30, 2023: 71.8%). On the cost-side, workforce and electricity costs stood out in a generally higher price environment.

A1 has agreed to acquire approximately 850 kilometers of gage piping from the Serbian provider Conexio. After the completion of the transaction, A1 Group will be able to lay fiber in the pipes and close the existing network infrastructure gap between the A1 markets Croatia and Bulgaria, while also providing routes to Hungary and North Macedonia.

in EUR million	Q2 2023	Q2 2022		H1 2023	H1 2022	
Total revenues	59	53	11.6%	121	105	15.4%
EBITDA	14	14	-3.9%	28	30	-6.7%
EBITDA margin	22.9%	26.6%	-3.7pp	22.9%	28.3%	-5.4pp

Service revenues increased due to the introduction of interconnection for text messages as well as tariff increases in July 2022 and January 2023. In the previous quarter (Q1 2023), higher equipment revenues strongly supported total revenues. A1 increased the mobile subscriber base and the share of contract customers (June 30, 2023: 92.1%). In the fixed-line business, reductions in voice and basic broadband RGUs were more than compensated by higher advanced broadband RGUs. On the cost side, there was a mandatory base-salary increase of 10% in January 2023. Costs for electricity were also significantly higher compared to the corresponding period of the previous year. At the end of June 2023, A1 shut down the 3G network.

North Macedonia

in EUR million	Q2 2023	Q2 2022		H1 2023	H1 2022	
Total revenues	37	34	6.3%	71.9	67.5	6.5%
EBITDA	12	12	3.8%	24.0	23.1	3.9%
EBITDA margin	33.7%	34.5%	-0.8pp	33.4%	34.2%	-0.9pp

In North Macedonia, service revenues performed consistently well throughout H1 2023. In the previous quarter (Q1 2023), higher equipment revenues supported total revenues. A1 increased its mobile subscriber base and the share of contract customers (June 30, 2023: 71.9%). In the fixed-line business, the number of broadband and voice RGUs increased as well as the total number of RGUs. On the cost side, there was an easing of electricity costs throughout 2023 whereas workforce costs increased.

Capital Expenditures

in EUR million	Q2 2023 unaudited	Q2 2022 unaudited	1-6 M 2023 unaudited	1-6 M 2022 unaudited
Capital expenditures paid	352	199	587	393
Reconciliation of additions in accounts payable	11	12	19	-1
Reconciliation of government grants	-4	4	1	7
Reconciliation of right-of-use assets paid	-1	-3	-1	-8
Total capital expenditures	359	211	606	391
Thereof tangible	215	173	421	318
Thereof intangible	144	38	185	73

Capital expenditures include additions to intangible and tangible assets including interest capitalized, but do neither include additions related to asset retirement obligations nor additions to right-of-use assets according to IFRS 16.

In accordance with IAS 7.43, the reconciliation of additions to accounts payable includes the adjustment of capital expenditures of the current period not yet paid as well as capital expenditures of prior periods paid in the current period. The reconciliation of government grants contains grants not yet paid, which have already been deducted from capital expenditures as well as grants of prior periods paid in the current period. The reconciliation of right-of-use assets paid contains prepayments and other direct costs, which are paid before the commencement date of the lease and are reported in the cash flow from investing activities.

Selected Explanatory Notes to the Consolidated Interim Financial Statements

Basis of Presentation

The consolidated interim financial statements as of June 30, 2023 and for the first six months of 2023 ("1-6 M 2023") include, in the opinion of Management, all adjustments necessary for a fair presentation of the financial position and performance and are not audited or reviewed and should be read in connection with the audited A1 Group's annual consolidated financial statements according to IFRS for the year ended December 31, 2022. The consolidated results for the interim periods are not necessarily indicative of results for the full year.

The use of automated calculation systems may give rise to rounding differences. Values of 0 shown in tables result from amounts lower than EUR 0.5 million.

The preparation of the interim financial statements in conformity with IAS 34 "Interim Financial Reporting" requires making estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. The significant judgements and the key sources of estimation uncertainty are the same as those described in the latest annual financial statements. Actual results could differ from these estimates

Compared to other economic sectors, the telecommunications industry is in general less cyclical. Within the telecommunication sector, the seasonality of the A1 Group's segments shows the same pattern as other European incumbents, having lower margins in the year-end quarter due to Christmas promotions and increases in sales commissions.

Changes in Accounting Policies

A1 Group has applied the same accounting policies and methods of computation in the interim financial statements as in the annual financial statements as of and for the year ended December 31, 2022, except the following standards respectively amendments to standards which are effective from January 1, 2023:

IAS 1 and IFRS PS 2	Amendments: Disclosure of Accounting Policies	
IAS 8	Amendments: Definition of Accounting Estimates	
IAS 12	Amendments: Deferred Tax related to Assets and Liabilities arising from a Single Transaction	
IFRS 17	Insurance Contracts	

The standards respectively the amendments to standards do not have a material impact on the condensed consolidated interim financial statements.

On January 1, 2023, the euro was introduced in Croatia and thus replaces the Croatian kuna as the functional currency of the Croatian subsidiaries. The exchange rate for one euro was set at 7.53450 Croatian kuna. The translation reserve recognized in equity until December 31, 2022 remains unchanged.

Revenues

The following table shows the disaggregated revenues per product line and segment:

1-6	NΛ	2023

in EUR million (unaudited)	Austria	Bulgaria	Croatia	Belarus	Slovenia	Serbia	North Macedonia	Other*	Consoli- dated

Cost and Expenses

The cost of equipment corresponds to material expense. Employee expenses are shown in the following table:

in EUR million	1-6 M 2023	1-6 M 2022
Employee expenses, including benefits and taxes	-487	-474

Intangibles and Property, Plant and Equipment

In April 2023, A1 Croatia acquired frequencies in the 800 MHz, 900 MHz, 1800 MHz, 2100 MHz and 2600 MHz bands for a total of EUR 110 million, including acquisition-related costs capitalized. The frequencies will be used for a period of 15 years starting in October 2024. Their payment led to an increase in capital expenditures paid in the second quarter 2023 (see "Capital Expenditures").

In the segment Belarus, an impairment of EUR 3 million was recognized for equipment of a solar power plant as the surplus energy produced cannot be sold anymore due to legal restrictions imposed.

Debt and Current Liabilities

In the first half of 2023, short-term bank debt increased by EUR 97 million as a result of higher capital expenditures and the dividend payment of EUR 213 million.

Provisions and Accrued Liabilities

Restructuring

The provision for restructuring (employees who will no longer provide services) and social plans as well as for civil servants who voluntarily changed to the Austrian government to take on administrative tasks and the discount rates applied are disclosed in the following table:

in EUR million	June 30, 2023 unaudited	Dec. 31, 2022 audited
Restructuring and social plans	353	362
Civil servants transferred to the government	5	5
Total restructuring	358	367
Discount rate		
Employees permanently leaving the service process	3.75%	3.75%
Social plans	4.00%	3.50%
Civil servants transferred to the government	3.75%	3.75%

In the first half of 2023, the provision for restructuring was reduced due to usage and the effect of the change in estimate of discount rates. This reduction was mostly offset by additions due to the acceptance of new social plans and the accretion of the provision.

Employee benefit obligations

The following table discloses the discount rates, which are unchanged compared to Dec 31, 2022, applied to measure employee benefit obligations:

Discount rate	June 30, 2023 unaudited	Dec. 31, 2022 audited
Service awards	3.75%	3.75%
Severance	3.75%	3.75%
Pensions	3.75%	3.75%

Asset retirement obligation

In the first half of 2023, the parameters used for calculating the asset retirement obligation were adjusted to current market expectations in each operative segment and are summarized in the following table:

	June 30, 2023	Dec. 31, 2022
Discount rate	3.1% - 20.9%	2.8% - 22.0%
Inflation rate	3.0% - 6.7%	2.6% - 8.5%

In essence, the change in the specified parameters as well as the change in the estimated outflow of resources resulted in an increase in the obligation with no impact on income due to an adjustment in the carrying amount of the related item of property, plant and equipment of EUR 10 million (1-6 M 2022: decrease of EUR 25 million).

Income Taxes

	1-6 M 2023	1-6 M 2022
Effective income tax rate	22.3%	22.3%

Stockholders' Equity

At the Annual General Meeting of Telekom Austria AG on June 7, 2023, a dividend of EUR 213 million (0.32 euro per share) was declared, which was paid to its shareholders on June 15, 2023. In 2022, a dividend of EUR 186 million (0.28 euro per share) was declared on June 27, 2022 and paid on July 5, 2023.

Other comprehensive income (loss) items in the Condensed Consolidated Statements of Changes in Stockholders' Equity include the remeasurement of defined benefit obligations (IAS 19 reserve), remeasurement of investments at fair value through other comprehensive income (FVOCI reserve), the hedging reserve and the translation reserve. In the first half of 2023, EUR 28 million of the effect of translation of foreign entities in other comprehensive income relate to the depreciation of the Belarusian ruble (1-6 M 2022: appreciation of EUR 20 million).

Share-based Compensation

On May 4, 2023, the 14th tranche of the long-term incentive program (LTI 2023) was granted and has a performance period from January 1, 2023 to December 31, 2025. Return on invested capital ("ROIC", weighted with 34%), the revenue market share of A1 Group (weighted with 33%) and two Environmental, Social & Corporate Governance goals ("ESG", reduction of gender pay gap and closing of the equal pay gap by year-end 2025, weighted with 16%, and reduction of the carbon footprint by year-end 2025, weighted with 17%) were defined as key performance indicators.

Financial Instruments

The following tables show the classification as well as the carrying amounts and fair values of financial assets and financial liabilities (debt). Fair values are not disclosed in case the carrying amount is a reasonable approximation of the fair value:

	June 30, 20	Dec. 31, 2022

Financial assets at fair value	77	77	72	72

n.a. - Not applicable as the practical expedient of IFRS 7.29 (a) was applied.

Financial assets at fair value mainly include quoted bonds, quoted shares and investment funds and are thus mainly classified as Level 1 of the fair value hierarchy.

^{*} mandatory

	June 30, 202	Dec. 31, 2022		
in EUR million	Carrying amount unaudited	Fair value unaudited	Carrying amount audited	Fair value audited
Short-term bank debt	619	619	522	522
Bonds	1,048	999	1,047	994
Long-term bank debt	300	304	300	305
Payables due to related parties	1	n.a.	1	n.a.
Current financial liabilities	834	n.a.	772	n.a.
Other non-current financial liabilities	24	23	39	37
Financial liabilities at amortized cost	2,826	n.a.	2,680	n.a.
Lease liabilities	616	n.a.	681	n.a.

n.a. - Not applicable as the practical expedients of IFRS 7.29 (a) respectively IFRS 7.29 (d) for lease obligations were applied.

The fair values of the quoted bonds (EMTN bonds and Eurobonds) equal the face value multiplied by the price quotations at the reporting date and are thus classified as Level 1 of the fair value hierarchy. The fair values of the bank debt are measured at the present values of the cash flows associated with the debt, based on the applicable yield curve. The fair values of the other non-current financial liabilities are measured at the present values of the cash flows, discounted based on current interest rates, and are thus classified as Level 2 of the fair value hierarchy.

Reorganization in A1 Group

In 2021 and 2022, parts of the passive infrastructure of the radio towers of the operative companies ("A1 companies") were transferred into the so-called "tower companies" in the segments Bulgaria, Croatia, Slovenia, Serbia and North Macedonia ("CEE tower business"). In Austria a separate tower business unit ("Austrian Tower BU") was established in 2021. On February 20, 2023, the Supervisory Board approved the reorganization plan to separate the tower business and authorized the Management Board to prepare the following reorganization steps:

- Upstream spin-off of the Austrian Tower BU from A1 Telekom Austria AG into Telekom Austria AG as of July 1, 2023, which was
 approved by the Supervisory Board on June 5, 2023.
- Downstream spin-off of the Austrian Tower BU, the indirect investment in CEE tower business and debt in the amount of EUR 1,031 million from Telekom Austria AG into an intermediate holding company (A1 Towers Holding GmbH). This transaction is expected to be approved by the shareholders of Telekom Austria AG at the Extraordinary General Meeting on August 1, 2023.
- Sidestream spin-off of the investment in A1 Towers Holding GmbH held by Telekom Austria AG by way of a spin-off by formation thereby creating EuroTeleSites AG. This transaction is expected to be approved by the shareholders of Telekom Austria AG at the Extraordinary General Meeting on August 1, 2023.

The shares in EuroTeleSites AG, which is expected to be listed on the Vienna Stock Exchange before the end of 2023, will be distributed to the shareholders of Telekom Austria on a pro rata basis.

Management Board

In May 2023, the A1 Group Supervisory Board decided to renew the management contracts of Thomas Arnoldner and Alejandro Plater for a period of three years starting on September 1, 2023 with the option for an extension for another two years. Upon his own request, Siegfried Mayrhofer will leave the company at the end of his current term on August 31, 2023.

As of September 1, 2023 the Management Board will consist of two members. Alejandro Plater will become the Chief Executive Officer (CEO), Thomas Arnoldner will become Deputy CEO.

Subsequent Events

On July 4, 2023, the master lease agreement between Telekom Austria AG, which holds the Austrian Tower BU until the final spin-off, and A1 Telekom Austria AG became effective and results in a stamp duty of approximately EUR 35 million. The final stamp duty will be assessed by the respective tax authorities.

On July 4, 2023, the upstream spin-off of the Austrian Tower BU from A1 Telekom Austria AG into Telekom Austria AG as of July 1, 2023 was entered in the commercial register.

On July 4, 2023, A1 Group redeemed a 3.5% bond with a face value of EUR 300 million.

On July 13, 2023, A1 Towers Holding GmbH issued a bond with a face value of EUR 500 million, an issuance price of 99.477%, a maturity of five years and a coupon of 5.25%. On July 20, 2023, A1 Towers Holding GmbH drew a term loan of EUR 500 million with a maturity of five years and a variable interest rate linked to the Euribor with a fixed margin. Furthermore a revolving credit facility of EUR 75 million was signed, available for drawings after the listing of EuroTeleSites AG.
